

Ronodeep Bhattacharya

Senior Software Engineer - 2

Experienced Backend Developer driving scalable, reliable micro-services systems with a strong focus on seamless user experiences, Fault Tolerance, high-performance booking flows, and delivering impactful, revenue-generating features.

About Me

Software Development Engineer with 6+ years of experience specializing in **backend development** and **scalable micro-services**. Proven success in building and deploying complex systems with **99% uptime**. Experienced in **Java, Spring Boot, RESTful APIs**, and **AWS**, Unix, Docker, Kubernetes, CI/CD tools like Jenkins and message queues such as **RMQ/ Kafka**. Hands-on experience in using **Gen-AI / ML** for complex system design and development.

Work Experience

Senior Software Engineer - 2 — [MakeMyTrip](#) Bangalore, India

Since November 2022

- **High-Scale Event Execution:** Core contributor to the technical readiness and execution of MakeMyTrip's inaugural "**Travel Ka Muharat**" sales event, ensuring system stability during massive traffic spikes and managing rapid configuration deployments.
- **Pioneered Next-Gen Web Check-in:** Engineered a "Future/Advance Scheduling" flow allowing users to schedule check-ins before the official window, significantly reducing peak-hour server load and enhancing customer convenience.
- **Architected Dynamic Pricing Engine:** Built a scalable Add-on Purchase system for Multi-PNR journeys, featuring a custom **Markup and Markdown Engine** to enable real-time dynamic pricing optimization across diverse supply segments.
- **Resilience & Financial Integrity:** Designed a **Lost Payment Identification** and **Proactive Refund** framework that automatically detects failures and triggers refunds with strict validation, minimizing manual support intervention.
- **Real-Time Transparency:** Integrated refund workflows with an Issue Tracker to display real-time status updates (for lost payments and add-on failures) directly to the user, boosting trust and reducing support queries.
- **Distributed Systems Architecture:** Implemented a fully asynchronous, fault-tolerant booking flow using multiple **RabbitMQ** queues, ensuring data consistency and booking success even during downstream service failures.
- **Aggregator Team Leadership:** Led end-to-end development for flight listings, reviews, and ancillary services, managing the complete lifecycle from pre-sales search to post-booking management.
- **Cross-Functional Orchestration:** Collaborated with Payment, Coupon, and Supply teams to implement rigorous pre-booking validations, ensuring seamless transaction processing and financial accuracy.
- **Operational Excellence:** Owned full-cycle delivery (Dev, Test, Deploy), maintaining **99.9% uptime** through robust monitoring/alerting strategies and ensuring backward compatibility for smooth production roll-outs.

SDE-2 — [Homelane](#) Bengaluru, India

From June 2022 to November 2022

- Developed APIs for B2B products, improving API performance by 20%. Collaborated with teams to enhance product integration, leading to smoother cross-system interactions.

Lead Software Engineer — [Persistent Systems LTD](#) Pune, India

From August 2018 to May 2022

- **Identity Governance & Development:** Led application onboarding for Saviynt and Oracle (OIM), developing custom connectors (Java/Groovy) for AD, Workday, and QAD to automate provisioning and reconciliation.
- **Cloud & Infrastructure:** Deployed secure web applications on **AWS** (EC2, S3, RDS, IAM) and implemented automated event handlers, schedulers, and monitoring using CloudWatch to ensure system reliability.

Education

B.Tech — [Academy Of Technology](#) Kolkata, WB, India

From August 2014 to May 2018

- Graduated B.TECH in Computer Science & Engineering with DGPA 8.83

- 🏠 Marathahalli, Bangalore, Karnataka 560037
- ✉️ ronodeepbhattacharya@gmail.com
- 📅 Date of birth 06/11/1996

Technical Skills

Backend Technologies

Java, Spring Boot, Go

Data Structures and Algorithms

Databases & Caching

MongoDB, SQL, Aerospike, NoSQL

Messaging & Event-Driven Processor

Kafka, RabbitMQ

Cloud & DevOps

AWS, Docker, Kubernetes, CI/CD (Jenkins), Git, Maven

Observability & Monitoring

Grafana, Scalyr, CloudWatch, Kibana

Computer Skills

- Vs Code
- IntelliJ Idea
- Cursor AI Editor
- Postman
- Confluence
- Draw.io
- Co-pilot
- ChatGPT

Soft Skills

- Self-Motivated
- Quick Learner
- Active Listener
- Effective Time Management
- Resilient in Adversity
- Approachable & Collaborative

Languages

- English
- Bengali
- Hindi

Hobby

Cycling
